## Use of Electronic Targets at the 2014 Queens

Last November your VRA Council made a decision to use the VRA's four Electronic Targets at this year's Queens.

During the past couple of weeks some members have raised concerns about using the Electronic Targets at our upcoming Queens. A VRA council meeting convened over the past couple of days to reconsider the issue has resulted in the Council deciding not to use the Electronic Targets at the 2014 Queens.

Your Council remain very keen to increase the usage of the VRA's Electronic Targets and will endeavour to satisfactorily test them and encourage their use over the next 12 months.

Judging from the feedback received, there seems to be quite a number of members, including interstate visitors, keen to participate in this year's event. We now look forward to seeing you there."
