Ruger Precision Rifles have arrived.

The new Gen 3 Ruger Precision Rifle offers yet another 'Voice of the Customer' driven improvement to the standard in long-range rifles.

This new model features a black nitride bolt body for corrosion resistance, smooth

highly automated and efficient factory, this rifle delivers a level of quality and performance that is unmatched in its price range. All B14 Series barreled actions feature Graphite Black Cerakote™ finishes for advanced protection in harsh weather. A 5-round AICS compatible detachable magazine is standard with our BMP rifle. All B-14 rifles are capable of producing sub-1.0 MOA groups or less at 100 yards using factory match grade ammunition.

operation and durability. It also features a 15" free-float M-LOK handguard made of hard black anodized aluminium with M-LOK slots on all four sides which improves scope clearance for long-range scopes and makes mounting of M-LOK-compatible rails accessories quick and easy. Ruger have also added an ambidextrous manual safety for to enable left or right-handed safety lever manipulation.
